

Skytrex-Mercator - ship - miniatures

Note: Skytrex is the new Mercator manufacturer for all following Mercator models, with same quality as with Mercator. This model line shows very much detailed, painted models. However the manufacturer is not always in the condition to produce the models on supply. Therefore, orders should take place by special order for 3 models each of the following lists. The models are then supplied automatically, as soon as available and/or your order is being kept, until the models can be manufactured. Skytrex models are only manufactured if sufficient orders for for the different models are present.

Model-No.	Type	Description	Year	Country	Price in EUR €
M-050	Typ 35	Minesweeper	1940	GER	10.50
